WORK EXPERIENCE

MOBILE & FRONT-END DEVELOPER

Next Chain Tech company

Ho Chi Minh City
10/2023 - now

- Developed Mobile Application with Flutter
 - Built mobile interfaces using Flutter, designing screens and custom widgets with responsive layouts.
 - Integrated REST APIs using http and dio packages to fetch and manage remote data.
 - Utilized Provider & Bloc for efficient state management, depending on project complexity.
 - Applied software architecture patterns such as MVVM, Bloc pattern to improve scalability and maintainability.
 - Followed Clean Architecture principles to separate concerns and enhance code quality and testability.
 - Integrated Google AdMob to monetize apps with banner and interstitial ads.
 - Used platform channels to communicate with native code (Java/Android and Swift/iOS) for custom features.
 - Worked with Firebase services including Cloud Messaging (FCM) for push notifications and Remote Config for dynamic behavior.
 - Developed WebView-based applications for hybrid use cases.
 - Published applications to the Google Play Store and Apple App Store, managing release cycles, responding to reviewer feedback, and resolving production issues.
- Developed Website's front-end with ReactJS, NextJS
 - Built responsive and user-friendly interfaces using ReactJS and Next.js.
 - Developed reusable components with Function Components and React Hooks.
 - Integrated RESTful APIs using Axios for seamless data communication.
 - Managed global application state using Redux & Zustand.
 - Ensured responsive design to enhance UI/UX across various devices.
 - Implemented i18n for multilingual support.
 - Configured WebSocket connections for real-time data updates.
 - Applied and optimized SEO strategies to improve website visibility.
- Actively participated in testing phases, worked with QA teams, and fixed bugs reported during internal testing and from live user feedback.
